General Meeting WIC

December 13th 2017

Greetings to Santa!

Santa Claus is on his way and will visit Delhi as well,
When we are silent, we can hear a jingle bell
On December 13, Delhi is the best place to be for the old white man
So let's join him on his journey, yes we can!

His planning and details are not yet known
I am sure he will manage everything on his own
We are looking forward to an inspiring Santa Claus
And we will welcome him with a huge round of applause.

The Art of Baking a 'Bûche de Noël', The Traditional French Christmas Cake

As we try to keep alive in our hearts, the shining lights of Diwali for as long as possible, we will soon enter the winter season and the preparations for yet another celebration: Christmas and its magical moments. Besides the main religious ceremonies, different countries and cultures have each their own traditional ways of celebrating Christmas.

In France and in several other Francophone countries, on Christmas Eve, the family gathers for a long dinner called "Réveillon". It is usually at the end of the dinner that a "Bûche de Noël" is served as dessert. "Yule log" or "Bûche de Noël" is the traditional French Christmas Cake, prepared specially in France, Belgium, Switzerland, Quebec and several other Francophone countries all over the world.

The very first Christmas Bûche de Noël was created in the late 1800s by a French Pastry Chef looking to replace and pay culinary homage to the original Yule log tradition, which was part of Christmas celebrations.

Let's get together for an afternoon of discovery and joy, with the Executive Chef of L'Opéra, Amit Sinha, who will share with us the art of baking a "Bûche de Noël" a certain way to celebrate Christmas "à la française".

Body & Soul
 Discovering Connections Beyond
 Aesthetics- Impact of Oral Health
 on Women

“Being a famous designer is like being a famous Dentist” – Noreen Morioko. Is that an exaggeration??maybe not because the 21st century India that we know today is celebrating aesthetics beyond the conventional professions; be it raising a toast to celebrity chefs where not just taste buds but all 5 senses need to be satiated, to dental surgeons who today claim celebrity status thanks to beauty pageants & Hollywood/Bollywood following.

The speaker, Dr. Madhumani Kumra, an established practitioner in the field of dental surgery has won accolades for her work in implantology & aesthetic dentistry. The talk takes us through the impact of oral health especially focussed on women - from pregnancy to old age. There is enough documentary evidence (pictorial annals, caricatures, frescos etc.) which indicates the importance of oral health in cultures across globe - these will be briefly discussed. Did you know that many diseases can be discovered through a thorough dental check-up???

..... And that your oral health could contribute to conditions like cardiovascular disease, lung infection or even knee surgery. Being aware of this connection is of paramount importance.

The talk explores these connections and many fascinating myths in dentistry through a power point presentation followed by an informal discussion.

The Book Club
"I Am A Seeker And
My Search Goes On..."
By Dr. Kusum Ansal"

Cultural Kaleidoscope / The Performing Arts Gift Wrapping and Origami

We combine two circles to bring you an interactive program on Origami and gift wrapping ideas from Japan and India. Two of our talented members, Atsuko and Salonika, will share with us their creative ideas.

Origami is the art of paper folding, and is one of the key art forms associated with Japanese culture. Atsuko will demonstrate two simple designs in which we can all participate. Salonika and Atsuko will then show us some flamboyant and colourful Indian and Japanese styles of Gift Wrapping. Ever so useful for the festive season, a present wrapped personally and uniquely enhances the value of the gift, making it really memorable."

Trip to Ajanta Ellora

Situated in Aurangabad, Maharashtra, the rock-cut architecture of the caves of Ajanta and Ellora (3rd c. B.C. to almost 7th c. A.D.) are one of the finest examples of the unparalleled artistic sophistication achieved in ancient India. Deservedly, both come under the category of UNESCO World Heritage Site, explaining their tremendous importance on the touristic map of the World. However, in recent past, the paintings in the caves of Ajanta have started showing signs of deterioration due to tourist traffic. The authorities are considering closing these nearly 2500 years old original caves and creating their replicas, in order to save further damage.

Without wasting any time and before the caves are closed for public viewing, the circle of Cultural Kaleidoscope takes a trip to Ajanta and Ellora. The trip will include – Ajanta caves, Ellora, Daulatabad, Bibi ka Maqbara – look alike of Taj Mahal, a mausoleum built for the wife of Aurangzeb, Paithan- the birth place of famed Paithani sarees.
